

OUR MISSION

Proud to help leaders focus on what really counts...

ADDED-VALUE

| KNOW-HOW

| IDEAS

| INNOVATION

...By taking on our shoulders their everyday concerns:

COMMON PARTS

| ASSEMBLIES

| INEFFICIENT PROCESSES

WE CAN HELP

COMPETENCES

WHO WE ARE

Founded in 2007 in Montreal, LR-TEK has become a major partner for many North American companies, for their reliable supply of custom parts and assemblies. The company is established in 3 countries, with more than 100 employees.

OUR VALUES

ADAPTABILITY

Being flexible

WILLPOWER

Going the extra mile

HUMILITY

Discreet, but pragmatic

FRIENDLINESS

Making things pleasant

EXPERTISE

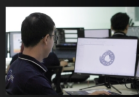

THE 10 BENEFITS

1. A client-oriented attitude
2. 100% ownership of the Production Facility
3. Everything included (customs, shipping, taxes)
4. Payment after delivery / No Downpayment
5. Samples for your approval
6. Expertise in International Logistics
7. Technical Advice included
8. Storage & Safety stock in Canada
9. Custom Deliveries based on your production
10. Transparent and Friendly!

WHAT WE DO

ENGINEERING

30 Engineers and Technicians provide technical expertise on projects

QUALITY

Extensive control of raw material and finished parts: 12 dedicated inspectors

MACHINING

Various CNC machines with experienced operators: mill/lathe 3/4/5-axis, swiss lathe

WELDING

We guarantee welding upon your specifications: type, size, aesthetical requirements

CASTINGS

More competitive on large volume: Sand molds, wax, gravity, permanent molds, die-casting

FORGING

For parts that have to resist to extreme conditions or high pressure

ASSEMBLIES

To accelerate and simplify your processes: Various components are delivered assembled, as a kit

GEARBOXES

35,000 gearboxes sold to Canadian heavy machinery OEM's

SURFACE

Galvanizing, Zinc-plating, Anodizing, Chrome, Black Oxide, Dacromet®, Geomet®

PAINTING

We paint (spray / powder coat / enamel / e-coating) any thickness and color. We color-match (RAL)

HARDENING

Nitriding, Carburizing, Full-depth hardening, Induction hardening

READY-TO-SELL

Finished products (with packaging, labels, logo, manuals,...), that can be directly shipped to retailers
