

GeoMine Underground Suite

GeoMine's High-performance & Intuitive UG Suite Includes:

- **Stopemizer** for stoping limit and mineable shape optimization.
- **uCAD** for underground mine design.
- **Cavemizer** for parametric caving optimization.
- **FSO** for flat shape optimization
- **QuickRing** for rapid drill and blast ring design.
- **iScheduler** for LOM and production schedules.
- **HaulCalc** haulage analysis & fleet budgeting.
- **DigiSIM** 3D haulage simulation for mine decarbonization study and supply chain simulation.
