Evaporation Case Study

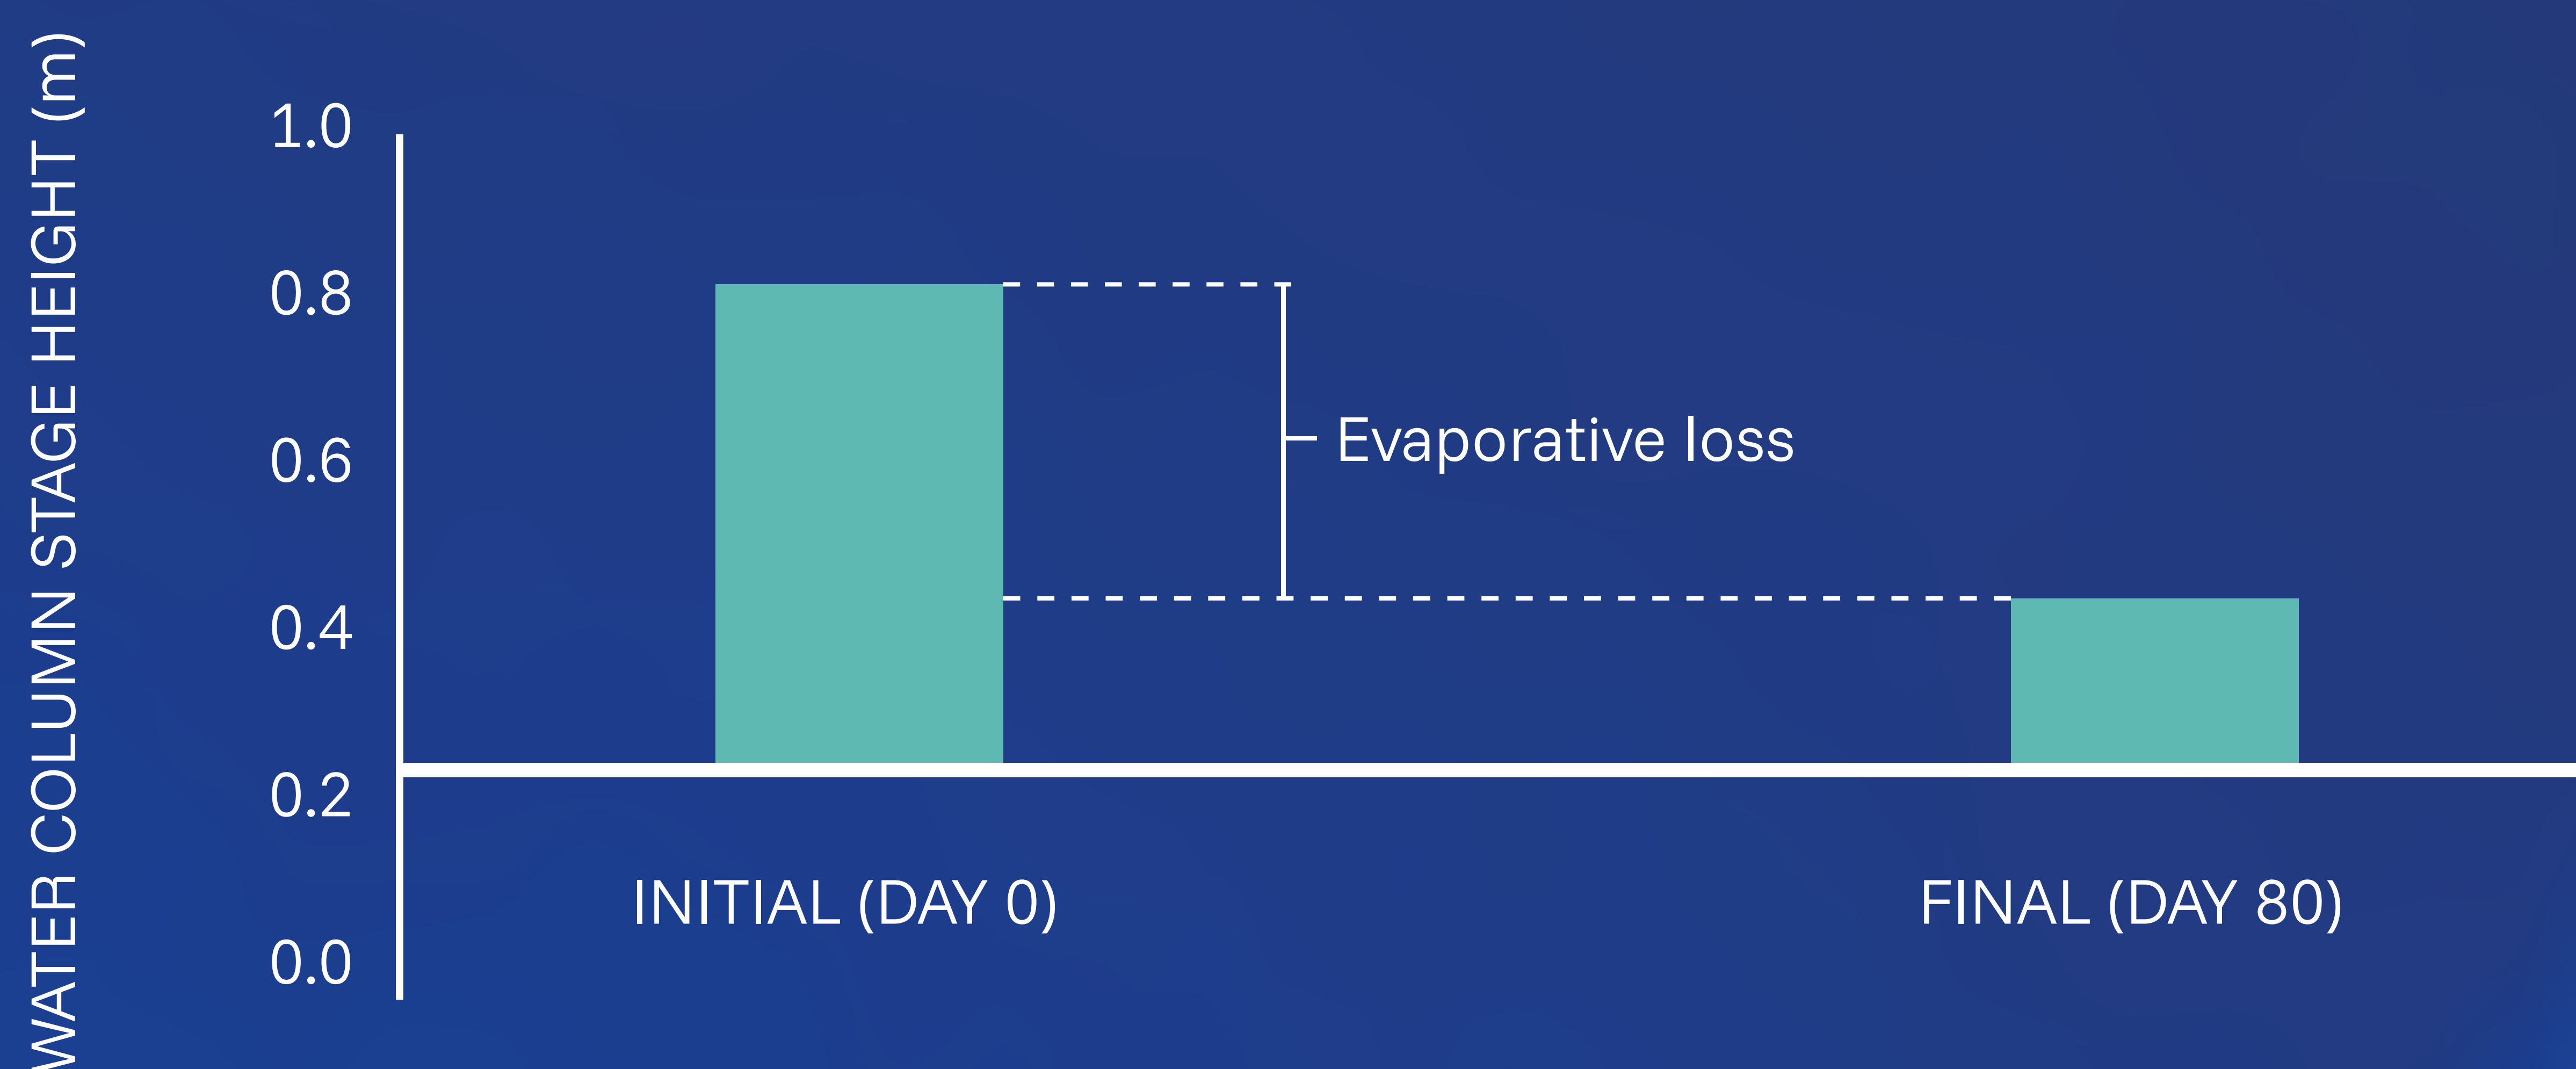

Coal Mining Co, CO (USA)

23% INCREASE IN EVAPORATION

EMF TREATED POND - MONITORED INFLOWS/OUTFLOWS

REFERENCE POND - NO INFLOWS/OUTFLOWS

EMF 2000 VALUE PROPOSITION

- Self-contained solar powered solution
- Pre-calibrated enhancing evaporation
- Autonomous operation
- Minimal OPEX (device maintenance only)
- Controlled via a smartphone and web
- Modular platform - enables simple maintenance
- Cloud accessible user interface
- Single unit impacts ~20 Ha of water surface
- Cellular Network and Bluetooth Connectivity
