## ToughEye-1700™ Rugged Self-Cleaning Camera

- ✓ Self-Cleaning without interrupting the view
- ✓ Zero Maintenance and Self-Sufficient
- ✓ Extreme Temperatures
- ✓ Suitable for Size-Restricted Applications
- ✓ Uses Existing Cabling (PoE+)
- ✓ Highly-Corrosive Environments eg. Potash
- ✓ Built Tough to Endure Impact, Vibration, Shock
- ✓ Priced for Maximum Value

Using our patented self-cleaning technology the TE-1700™ sees clearly through abrasive dust, bitumen, mud, oil, potash, and more without the use of water, detergents, or compressed air.

Incorporating a rugged single-piece design and our field-proven and innovative ClearSight™ technology, the ToughEye™ family of cameras offer **crystal clear vision** with **complete reliability** and **zero-maintenance**.

**Reduce Asset Damage**

# EXCELSENSE

## **Increase Safety Reduce Downtime**

Unparalleled situational awareness and visibility of fixed and mobile equipment. Compact and simple to install. Zero maintenance.

## **Effortless, Continuous Visibility for Remote Monitoring & Teleoperation**

Maximize the value of remote monitoring by eliminating in-person camera maintenance, and confined space work.

## **Optimized Vantage Point in Extreme Dust**

Our design allows you to mount your camera close to the target to reduce the dust barrier. No need to keep the camera away from dust, or worry about access for regular maintenance.
